

## 'ONE WORLD GARDEN' in Whitehead

Whitehead will be representing the Borough and Northern Ireland in Britain in Bloom this year. The theme for Britain in Bloom this year is 'Local Roots' and we would like to engage with this important theme. After some discussion with local stakeholders, including Carrickfergus Borough Council, it was thought that a suitable project would be a 'One World Garden'. The 'One World Garden' will include plants that represent the different cultural groups within the area. The garden will be designed not only as an educational aid but more importantly to bring people together i.e. different ages, different races and different local and international cultures. The garden will be located at Whitehead Recreation Grounds in Chester Avenue.
